

We're still the  
*(reliable)*

1

Who is the reliable source of news and information, whether online or on paper? Your local newspaper. Newspapers use the same time-tested methods and sources that were credible 100 years ago – interviewing real people, asking for public information from city hall, and doing their homework the old-fashioned way.

**No shortcuts. No kidding.  
Newspapers. As real as it gets.**

#1 Legitimate  
& Credible

*Your credible, reliable source for news & information.*
